Question 1:

- Do you go for morning walks?
- Have you ever seen ants in the garden?
- Watch and see where they go and what they carry to their holes.

Answer: Disclaimer: *These are sample answers. Students are advised to write the answers based on their own experience and observation.*

- Yes, I go for morning walks. I go along with my grandparents.
- Yes, I have seen ants in the garden. They move really fast.
- They start from the main gate of the garden towards a small hole at the end of the park. They carry tiny left out grain particles and move towards their holes.

Question 1: Do you know why you see snails and earthworms after it rains? Sit in a group and discuss.

Answer: Disclaimer: *These are sample answers. Students are advised to write the answer based on their own experience and observation.*

Snails and earthworms live deep under the surface of the earth. So, whenever it rains, their house gets wet. It is because of which they have to come over the surface, on the ground to find place to live and food to eat.
